MINA

DALLA
CORTE

THE MINA IS A NEW SINGLE GROUP PROFESSIONAL ESPRESSO MACHINE, BY DALLA CORTE, WHICH ALLOWS YOU TO CONTROL THE FLOW OF WATER, AND IN DOING SO PRECISELY CONTROL YOUR PRE-INFUSION AND EXTRACTION, ALLOWING YOU TO TWEAK THE RESULTS OF YOUR COFFEE AND GIVE IT ENDLESS FLAVOUR POTENTIAL.

FEATURES

Flow Profiling - The Mina uses the patented DFR system to control water flow. DFR is a digitally controlled flow restrictor that allows for up to 100 points of flow control. This allows us to specify stages of flow rate, to the coffee puck, in grams of water per second. You can now modify and totally control pre-infusion and the overall extraction.

App Controlled - The Mina uses a bluetooth app to control all parameters of the machine and to create, edit and save a library of flow profiles for your coffees.

Dose Accuracy - The Mina uses an exclusive new flow meter design, which is so accurate, you can measure output of water in grams without requiring scales.

Personalised Style - The Mina allows you to easily customise the appearance of your machine so it fits perfectly in your curated venue or space.

SPECS

1 GROUP

DIMENSIONS (W X H X D)	MM	385 X 385 X 410
WEIGHT	KG	33
CONNECTED LOAD		230/240V, 15AMP, 1PH, 50/60HZ
BOILER CAPACITY	L	3
CAPACITY OF GROUP HEADS	L	0.5
FIXED WATER CONNECTION		INCLUDED
