Automated Cleaning cycles and HACCP compliant WMF Plug & Clean Milk System allow the user to clean with the press of a button, saving time and operation costs.

Basic maintenance can be carried by the end user due to clever engineering and design which makes service calls a rare occurrence.

A variable number of drink buttons a simple labelling concept allow the user to label and program up to twelve easily accessible coffee drinks.

The 1200S keeps it simple with all important functions & operations easily accessible and editable using a two line display and 5 function keys.

The 1200S is more environmentally friendly with reduced energy consumption, fewer chemicals and almost entirely recyclable.

Its slim construction (324 mm wide) and modular accessories make the WMF 1200S adaptable to any office environment or customer need.

Customisable Eco-modes and Zero-Energy Function reduce running costs with affecting quality.

Easy automated control for customers. Using the + or - button you can change you drink to be strong or mild, large or small.

Stylish integrated LEDs light up the preparation area and create subtle ambience for the user.

The 1200S features multiple easy to use adjustments including a manual coffee insert which allows you to use other types of coffee eg. Decaf or single origin.

WMF Australia have an Australia wide sales & service network with trained service engineers.
